
Call to support research projects on the social impact of Covid-19 in Portugal

Call reference: (LL20-03)

Resolution

The aim of the call was to support research projects on the impact of the COVID-19 pandemic on Portuguese society.

The call was open to research projects that could complete the entire path from hypotheses to conclusions within a maximum period of 6 months and present the results of the research in an outreach article to be published by the Social Observatory of "la Caixa".

The selection process of the proposals received was conducted by academic experts from the field of social sciences. The projects remained anonymous throughout the evaluation process.

Selected projects

Title	Institution	Project leader
Mental health after infection: Effects of Covid-19 on survivors' psychosocial functioning	CINEICC, University of Coimbra, Portugal	Inês Trindade
COVID-19 pandemic and early education services for 0-3 children: Educational and social impact	Centre for Research and Innovation in Education (inED)	Sara Barros Araújo
